

QUIZ - Energy Star as Code  
8-3-08

Thank you for participating in Wednesday's NE HERS Alliance conference call.

If you or your HERS Provider is a member of the NE HERS Alliance and you are a certified HERS rater, you can earn one continuing education credit (CEU) if you answer 5 of the attached questions and email back to me within a month of the original call.

Feel free to forward the quiz to all certified raters from your company who listened to (or plan to download and listen to) the conference call. To earn the credit they each must respond in a separate email to me.

REMINDER ON CEUS: your accredited provider must keep a record of the CEUs that their certified raters earn, so please inform your quality assurance designee whenever you submit the quiz for an NEHERS call. My records may serve as a backup, but are not guaranteed.

Let me know if you have any questions.
