

2010 Board of Directors

Executive Committee

President: Peter Harding

Secretary: Brian Stanfill

Vice President: Chris Gordon

Treasurer: Glenn Haynes

Rater Category (1 Position)

Robert Delfino

Energy Testing Services, Bohemia, NY

Robert has been a HERS rater since 2007 and is BPI certified. Rob's family has had the insulation business for 55 years, and he has been with the company for 32!

Robert runs the home performance part of the business, Energy Testing Services, LLC, performing HERS Ratings, Home Performance and Energy Audits, and overseeing retrofits. He is working on his infrared certification at present.

Robert is involved other programs on Long Island such as the green building code in Babylon; LIPA's Home Performance program, National Grid's weatherization program and the Long Island chapter of the BPCA.

Associate Member Category (1 Position)

Glenn Haynes, PE

Kema, Inc.

Mr. Haynes has worked in the energy engineering field for over 30 years, first as an HVAC design engineer for 14 years, then as an energy conservation program evaluator to date, with a few short related jobs and graduate school in between. At Kema, Inc. in Middletown, CT, his primary responsibilities include performance of field audits, end-use metering, engineering and statistical analyses, and reporting for all types of utility conservation program impact evaluations. These evaluations have included: Energy Star program baseline and impact evaluations that require Energy Star site audits with blower door and duct blaster testing, and REM/Rate analyses. He also uses DOE2, TRACE and other building energy simulation tools for energy and demand impact analysis.

HERS Provider Category (5 Positions)

Lois Arena, Rating Provider

Steven Winter Associates, Norwalk, CT

Lois Arena possesses over 15 years experience in the building energy field. She has extensive experience with new and existing residential buildings including on-site testing and diagnostics, design assistance and energy modeling. Awards presented to her clients include the New Millennium Builder Award and Gold Energy Value Housing Award from the NAHB. Lois has co-authored and presented training programs about energy efficient building practices to professionals in all sectors of the building industry. As a licensed remodeling contractor, she focused on an integrated systems approach to building incorporating both energy-efficient and green building technologies.

At Steven Winter Associates, Lois she works under the Building America program and conducts advanced systems research. She received her M.S. in engineering from the University of Colorado's Building Science Program. She is also a certified QA designee and BPI Building Systems Analyst.

Chris Gordon, Implementation Specialist
Vermont Energy Investment Corporation, Burlington, VT

Chris Gordon serves as an Implementation Specialist with Vermont Energy Investment Corporation (VEIC), where he manages the Vermont ENERGY STAR Homes program through VEIC's Efficiency Vermont service.

In addition to directing program implementation and incentives for participation in Vermont ENERGY STAR Homes, Chris is involved in marketing Efficiency Vermont's services for new home construction. Chris will also play a key role in developing services to support higher levels of energy performance for new homes. Chris holds a Master's degree in Natural Resource Planning from the University of Vermont and currently serves on the Board of the Northeast Organic Farming Association of Vermont (NOFA-VT).

Jim Hammel
Building Performance Contractors Association

Jim Hammel is a retired Earth Science Teacher and owner of a small company, James E. Hammel, Inc. that provides Home Energy Rating services to builders and owner-builders throughout Central New York. Jim is on the Board of the Building Performance Contractors Association/NYS (BPCA) and is a member of the Homebuilders Association of Central New York. Having a lifetime interest in building-related coursework, Jim has attended numerous international, national and state seminars and conferences. He has assumed the official role of Events Coordinator for BPCA/NYS organizing monthly Dinner Forums, educational workshops and field trainings throughout New York State that offer Continuing Education Credits to a variety of building professionals. Most recently he is responsible for bringing timely, topic-specific field trainings to HERS Raters and Building Performance Contractors across New York State. With this statewide exposure with NYS Raters, Mr. Hammel will bring a good understanding of the problems and experiences of Raters to the table.

Peter Harding
Home Energy Technologies, LLC, Chester, CT

Peter Harding is the President of Home Energy Technologies, a HERS Provider based in Chester, CT. Peter founded Home Energy Technologies in early 2009 to take over the rating and ENERGY STAR certification business of Competitive Resources Inc, his previous employer. Home Energy Technologies provides ENERGY STAR, NAHB National Green Building Program and Builders Challenge verification services to home builders in Connecticut and adjacent states.

Peter is a RESNET-certified Green Rater and QA Designee, a NAHB-certified Green Professional and NGBP Verifier and an active member of the Hartford Home Builders Association. His prior experience includes residential development and remodeling and over 25 years as a management consultant.

Brian Stanfill, Technical Supervisor
MaGrann Associates, Moorestown, NJ

Brian Stanfill joined MaGrann Associates in 2005 and became a certified Home Energy Rater in 2006. After performing hundreds of home energy ratings, Brian became supervisor of the team of raters that performs thousands of ratings each year for the New Jersey ENERGY STAR Homes program and the USGBC's LEED for Homes program. He has worked on many high profile ratings in the Delaware Valley including ABC's first Extreme Makeover Home built to the ENERGY STAR standard. As supervisor he oversees quality control and identifies areas for process improvements and program development.

Brian received his Bachelor of Science degree in Mechanical Engineering from Drexel University in 2005. Through the university's co-op program he worked with MaGrann Associates as an intern in 2004, learning the energy rating field.

Training Provider category (1 Position)

Ethan MacCormick, VP for Services to Energy Businesses Performance Systems Development (PSD), Ithaca, NY

Ethan MacCormick is a HERS Rater, Rater Trainer for PSD, and one of the lead rater trainers for NE HERS Alliance. Ethan was a homebuilder for 15 years, and a software developer before joining PSD. He co-developed PSD's Rater Training Curricula, and assists in PSD's building science and HERS trainings. He is a contributing author for the 2005 NEHERS Energy Rater Manual. Before that, he built custom homes in New York and Vermont. Ethan is a volunteer firefighter, as well as a certified Emergency Medical Technician. Ethan also serves on a number of boards and committees for the ratings industry, both regionally and nationally.

Program category (1 Position)

Margaret Song, Senior Residential Programs and Marketing Cape Light Compact, Barnstable, MA

Margaret has worked in the residential energy efficiency field since 2002 and has focused on consumer products, low-income programs, and new construction. She has been managing the Green Affordable Homes Program since its inception in 2006, and the first 16 affordable units in the nation to achieve LEED-H Platinum are in that program.

Margaret's background is in public relations and marketing, and she is working on completing a Master's degree at Harvard University Extension School in history and a mechanical engineering degree at Northeastern University.

The Cape Light Compact is a regional energy services organization serving Cape Cod and Martha's Vineyard. The Compact works with the combined buying power of the region's over 200,000 electric consumers to negotiate for lower cost electricity, including a green power offering, and other public benefits.
